| <b>Document Group:</b> | 45-0013-8 | <b>Version Number:</b>  | 1.00          |
| <b>Issue Date:</b>     | 06/13/24  | <b>Supersedes Date:</b> | Initial Issue |

### SECTION 1: Identification

#### 1.1. Product identifier

Meguiars G2507 Air Refresher Spray Black Chrome (G250708)

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Custom Compound

#### 1.3. Supplier's details

|                      |                                     |
|----------------------|-------------------------------------|
| <b>MANUFACTURER:</b> | Meguiar's, Inc.                     |
| <b>DIVISION:</b>     | Meguiar's                           |
| <b>ADDRESS:</b>      | 213 Technology Dr, Irvine, CA 92618 |
| <b>Telephone:</b>    | 1-800-347-5700                      |

#### 1.4. Emergency telephone number

CHEMTREC 1-800-424-9300 (24 hours)

### SECTION 2: Hazard identification

#### 2.1. Hazard classification

Serious Eye Damage/Irritation: Category 1.

#### 2.2. Label elements

##### Signal word

Danger

##### Symbols

Corrosion |

##### Pictograms

**Hazard Statements**

Causes serious eye damage.

**Precautionary Statements****General:**

Keep out of reach of children.

**Prevention:**

Wear eye/face protection.

**Response:**

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

3% of the mixture consists of ingredients of unknown acute inhalation toxicity.

**SECTION 3: Composition/information on ingredients**

| Ingredient   | C.A.S. No. | % by Wt              |
|--|------------|----------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | 68081-81-2 | 1 - 5 Trade Secret * |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | 64366-70-7 | 1 - 5 Trade Secret * |

Any remaining components do not contribute to the hazards of this material.

\*The specific chemical identity and/or exact percentage (concentration) of this composition has been withheld as a trade secret.

**SECTION 4: First aid measures****4.1. Description of first aid measures****Inhalation:**

Remove person to fresh air. If you feel unwell, get medical attention.

**Skin Contact:**

Wash with soap and water. If signs/symptoms develop, get medical attention.

**Eye Contact:**

Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing.

Immediately get medical attention.

**If Swallowed:**

Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

Serious damage to the eyes (corneal cloudiness, severe pain, tearing, ulcerations, and significantly impaired or loss of vision).

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable.

**SECTION 5: Fire-fighting measures**

**5.1. Suitable extinguishing media**

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**5.3. Special protective actions for fire-fighters**

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

Evacuate area. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment. For larger spills, cover drains and build dikes to prevent entry into sewer systems or bodies of water.

**6.3. Methods and material for containment and cleaning up**

Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

**SECTION 7: Handling and storage****7.1. Precautions for safe handling**

Keep out of reach of children. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment.

**7.2. Conditions for safe storage including any incompatibilities**

No special storage requirements.

**SECTION 8: Exposure controls/personal protection****8.1. Control parameters****Occupational exposure limits**

No occupational exposure limit values exist for any of the components listed in Section 3 of this SDS.

**8.2. Exposure controls****8.2.1. Engineering controls**

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

**8.2.2. Personal protective equipment (PPE)**

**Eye/face protection**

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Full Face Shield  
Indirect Vented Goggles

**Skin/hand protection**

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. Note: Nitrile gloves may be worn over polymer laminate gloves to improve dexterity.

Gloves made from the following material(s) are recommended: Polymer laminate

When only incidental contact is anticipated, alternative glove material(s) may be used. If contact with the glove does occur, remove immediately and replace with a set of new gloves. For incidental contact, gloves made of the following material(s) may be used: Nitrile Rubber

**Respiratory protection**

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapors and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

**SECTION 9: Physical and chemical properties****9.1. Information on basic physical and chemical properties****Appearance**

Physical state  
Color

Liquid  
Colorless

**Specific Physical Form:**

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

This material is considered to be non reactive under normal use conditions.

### 10.2. Chemical stability

Stable.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

### 10.4. Conditions to avoid

None known.

### 10.5. Incompatible materials

None known.

### 10.6. Hazardous decomposition products

Substance

Condition

None known.

## SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

May be harmful if inhaled. Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

#### Skin Contact:

Mild Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, and dryness.

#### Eye Contact:

Corrosive (Eye Burns): Signs/symptoms may include cloudy appearance of the cornea, chemical burns, severe pain, tearing, ulcerations, significantly impaired vision or complete loss of vision.

#### Ingestion:

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

| Name   | Route                          | Species           | Value   |
|--|--------------------------------|-------------------|---|
| Overall product  | Inhalation-Dust/Mist(4 hr)     |                   | No data available; calculated ATE >5 - =12.5 mg/l |
| Overall product  | Ingestion                      |                   | No data available; calculated ATE >5,000 mg/kg    |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Dermal                         | Rat               | LD50 > 2,000 mg/kg                                |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Ingestion                      | Rat               | LD50 1,080 mg/kg                                  |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Inhalation-Dust/Mist (4 hours) | similar compounds | LC50 0.31 mg/l                                    |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | Dermal                         | similar compounds | LD50 > 2,000 mg/kg                                |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | Ingestion                      | similar compounds | LD50 > 2,000 mg/kg                                |

ATE = acute toxicity estimate

**Skin Corrosion/Irritation**

| Name   | Species                | Value              |
|--|------------------------|--------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Rabbit                 | Irritant           |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | Professional judgement | Minimal irritation |

**Serious Eye Damage/Irritation**

| Name   | Species                | Value           |
|--|------------------------|-----------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Rabbit                 | Corrosive       |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | Professional judgement | Severe irritant |

**Skin Sensitization**

| Name   | Species           | Value          |
|--|-------------------|----------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Guinea pig        | Not classified |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | similar compounds | Not classified |

**Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity**

| Name   | Route    | Value         |
|--|----------|---------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | In Vitro | Not mutagenic |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | In Vitro | Not mutagenic |

**Carcinogenicity**

| Name  | Route     | Species | Value            |
|---|-----------|---------|------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | Rat     | Not carcinogenic |

**Reproductive Toxicity**

**Reproductive and/or Developmental Effects**

| Name  | Route     | Value                                  | Species | Test Result         | Exposure Duration |
|---|-----------|--|---------|---------------------|-------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | Not classified for male reproduction   | Rat     | NOAEL 350 mg/kg/day | 3 generation      |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | Not classified for female reproduction | Rat     | NOAEL 350 mg/kg/day | 3 generation      |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Dermal    | Not classified for development         | Rabbit  | NOAEL 90 mg/kg/day  | during gestation  |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | Not classified for development         | Rat     | NOAEL 780 mg/kg/day | during gestation  |

**Target Organ(s)****Specific Target Organ Toxicity - single exposure**

| Name   | Route      | Target Organ(s)        | Value  | Species                | Test Result         | Exposure Duration |
|--|------------|------------------------|--|------------------------|---------------------|-------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts    | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL Not Available |                   |
| Oxirane, methyl-, polymer with oxirane, mono(2-ethylhexyl) ether | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | similar health hazards | NOAEL Not available |                   |

**Specific Target Organ Toxicity - repeated exposure**

| Name  | Route     | Target Organ(s)                                 | Value          | Species | Test Result         | Exposure Duration |
|---|-----------|---|----------------|---------|---------------------|-------------------|
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | liver   kidney and/or bladder                   | Not classified | Rat     | NOAEL 250 mg/kg/day | 10 weeks          |
| Benzenesulfonic acid, mono-C10-16-alkyl derivs., sodium salts | Ingestion | heart   endocrine system   hematopoietic system | Not classified | Rat     | NOAEL 250 mg/kg/day | 12 weeks          |

**Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**SECTION 12: Ecological information****Ecotoxicological information**

Please contact the address or phone number listed on the first page of the SDS for additional ecotoxicological information on this material and/or its components.

**Chemical fate information**

Please contact the address or phone number listed on the first page of the SDS for additional chemical fate information on this material and/or its components.

**SECTION 13: Disposal considerations****13.1. Disposal methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty

drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

## SECTION 14: Transport Information

For Transport Information, please visit <http://3M.com/Transportinfo> or call 1-800-364-3577 or 651-737-6501.

## SECTION 15: Regulatory information

### 15.1. US Federal Regulations

Contact manufacturer for more information

#### EPCRA 311/312 Hazard Classifications:

##### Physical Hazards

Not applicable

##### Health Hazards

Serious eye damage or eye irritation

### 15.2. State Regulations

Contact manufacturer for more information

### 15.3. Chemical Inventories

The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

Contact manufacturer for more information

### 15.4. International Regulations

Contact manufacturer for more information

**This SDS has been prepared to meet the U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200.**

## SECTION 16: Other information

#### NFPA Hazard Classification

**Health:** 3 **Flammability:** 1 **Instability:** 0 **Special Hazards:** None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

**Document Group:** 45-0013-8

**Version Number:** 1.00

**Issue Date:** 06/13/24

**Supersedes Date:** Initial Issue
